

Transfer of securities to BNP Paribas Arbitrage Issuance B.V. (“BNPP IBV”) pursuant to Part VII of the UK Financial Services and Markets Act 2000

On 19 November 2015, The Royal Bank of Scotland plc (with its registered office at 36 St Andrew Square, Edinburgh, Scotland) (“**RBS**”) and BNP Paribas S.A. (incorporated in France and with its registered office at 16, Boulevard des Italiens, 75009 Paris, France) (“**BNPP**”), acting through its London Branch, announced that the Court of Session in Scotland had approved and sanctioned the implementation of a banking business transfer scheme, whereby certain assets and liabilities related to RBS’s structured retail investor products and equity derivatives business would be transferred to BNPP pursuant to Part VII of the UK Financial Services and Markets Act 2000 (the “**Part VII Scheme**”).

The Part VII Scheme took effect on 7 December 2015 (the “**Effective Date**”).

On the Effective Date, BNPP, acting through its London Branch, became the issuer of those securities originally issued by RBS that were transferred pursuant to the Part VII Scheme. Immediately after the transfer of those securities to BNPP, acting through its London Branch, the role of the issuer under those securities was transferred, also under the terms of the Part VII Scheme, to BNPP IBV, a wholly owned subsidiary of BNPP. As part of the Part VII Scheme, BNPP guarantees all the obligations of BNPP IBV arising in respect of the transferred securities.

Under the Part VII Scheme, amendments were made to the terms of the transferring securities and to agreements related to them from the Effective Date in order to give effect to the Part VII Scheme, including (but not limited to) references to “RBS”, in its capacity as issuer of the transferred securities, being construed as references to “BNPP IBV”.

Details of the securities that have transferred under the Part VII Scheme as well as further information on the Part VII Scheme generally can be viewed at <http://warrants.bnpparibas.com/>

Transfers of securities to RBS plc pursuant to Part VII of the UK Financial Services and Markets Act 2000

On 6 February 2010 ABN AMRO Bank N.V. (registered with the Dutch Chamber of Commerce under number 33002587) changed its name to The Royal Bank of Scotland N.V. ("**RBS N.V.**") and on 1 April 2010 ABN AMRO Holding N.V. changed its name to RBS Holdings N.V.

On 23 September 2011, RBS N.V. and The Royal Bank of Scotland plc (with its registered office at 36 St Andrew Square, Edinburgh, Scotland) ("**RBS plc**") announced that the Court of Session in Scotland had approved and sanctioned the implementation of a banking business transfer scheme whereby eligible business carried on in the United Kingdom by RBS N.V. would be transferred to RBS plc pursuant to Part VII of the UK Financial Services and Markets Act 2000 (the "**Part VII Scheme**"). The Part VII Scheme took effect on 17 October 2011 (the "**Effective Date**").

From the Effective Date, RBS plc became the issuer of those securities originally issued by RBS N.V. which were transferred to RBS plc pursuant to the Part VII Scheme. Under the Part VII Scheme, amendments were made to the terms of the transferring securities and to agreements related to them from the Effective Date in order to give effect to the Part VII Scheme, including (but not limited to) references to "RBS N.V." being construed as references to "RBS plc". Details of these amendments are set out in the Scheme Document which can be viewed at http://www.investors.rbs.com/RBS_NV.

For details of which securities were transferred to RBS plc pursuant to the Part VII Scheme, investors should refer to http://www.investors.rbs.com/RBS_NV or, for securities issued from on or about 21 July 2011, investors should refer to the terms of the issue or offer documents (including term-sheets) (if they indicate that RBS plc was expected to become the issuer of the securities as a result of the Part VII Scheme, then RBS plc has become the issuer, unless the securities have been exercised, redeemed or repurchased and cancelled prior to the implementation of the Part VII Scheme).

For further details of the Part VII Scheme generally, investors should refer to http://www.investors.rbs.com/RBS_NV.

Open End Certificates on the ABN AMRO Solar Energy TR Index

Final Termsheet, 5 January 2007

Open-ended USD

We are pleased to present for your consideration the transaction described below. We are willing to negotiate a transaction with you because we understand that you have sufficient knowledge, experience and professional advice to make your own evaluation of the merits and risks of a transaction of this type and you are not relying on ABN AMRO Bank N.V. ("ABN AMRO") nor its employees, agents or any of its group companies for information, advice or recommendations of any sort other than the factual terms of the transaction. This material should be read in conjunction with ABN AMRO's General Conditions and Product Conditions (collectively, the "Conditions") relating to the securities described below. Terms used but not otherwise defined herein shall have the meanings assigned to them in the Conditions. This term sheet does not identify all the risks (direct or indirect) or other considerations which might be material to you when entering into the transaction. You should consult your own business, tax, legal and accounting advisors with respect to this proposed transaction and you should refrain from entering into a transaction with us unless you have fully understood the associated risks and have independently determined that the transaction is appropriate for you. Due to the proprietary nature of this proposal please understand that it is confidential.

Issuer:	ABN AMRO Bank N.V. (Senior Long Term Debt Rating: Moody's Aa3, S&P AA-)
Lead Manager:	ABN AMRO Bank N.V.
Calculation Agent:	ABN AMRO Bank N.V., London Branch
Time Table	
Pricing Date:	12 January 2007
Issue Date:	15 January 2007
Listing Date:	15 January 2007
Public Offer Date:	15 January 2007
Specific Offering Terms	
Offering:	Open End Certificates (the " Certificates " or individually the " Certificate ")
Underlying:	ABN AMRO Solar Energy TR Index (" Index ")
Reuters Code:	.ABNZSOL
Bloomberg Code:	ABNZSOL
Spot:	79.94 as of 3 January 2007
Underlying Currency:	EUR
Index Calculator:	Standard & Poor's
Issue Price:	USD 100
Number of Certificates Issued:	30,000
Initial Cash Amount:	USD 100
Settlement Currency:	USD
Nominal Amount: (Number of Certificates Issued x Issue Price)	USD 3,000,000
Security Codes:	ISIN: CH0028645551, Symbol: SOLUS, Valoren: 2864555, Common Code: 028211953
Standard Product Terms	
Description:	A certificate without fixed expiration that tracks the performance of the Shares being comprised in the Index as described in the attached Index Description less fees. Investors are entitled to exercise the Certificates on an annual basis on specified Exercise Dates. The Issuer is entitled to terminate the Certificates under certain conditions.
Certificate Value:	An amount determined by the Calculation Agent in accordance with the following formula:
	(i) On the Issue Date: $CV_0 = \text{Initial Cash Amount}$
	(ii) On any Trading Day t:

$$CV_t \square I_t \square \frac{CV_{t-1} \square FX_t}{I_{t-1} \square FX_{t-1}} \square 1 \square F \square DCF_{t-1,t}$$

Where:

CV_t	= certificate value on Trading Day t
CV_{t-1}	= certificate value on previous Trading Day (t-1)
I_t	= closing level of the Index on Trading Day t
I_{t-1}	= closing level of the Index on previous Trading Day t-1
F	= Fee Rate
DCF(t-1,t)	= day count fraction between (t-1) and t Trading Days
FX_t	= FX Rate on Trading Day t
FX_{t-1}	= FX Rate on previous Trading Day t-1

Day Count Fraction ("DCF")	The number of calendar days between the relevant Trading Day (including) and the previous Trading Day (excluding) divided by 360
Fee Rate:	The per annum percentage rate determined by the Calculation Agent in its sole discretion on each Management Fee Reset Date as being applicable until the occasion upon which it is determined, subject to a maximum of 1.5% per annum. The initial Fee Rate is 1% per annum.
Management Fee Reset Date:	The last Business Day of each calendar quarter period from August 2007
FX Rate:	EUR/USD price as quoted on Bloomberg page WMCO (currently published at 3 p.m. Greenwich Mean Time)
Exercise:	Investors are entitled to exercise the Certificates on an annual basis on specified Exercise Dates
Exercise Date:	Three Business Days prior to a scheduled Valuation Date
Exercise Settlement Amount:	For each Certificate duly exercised, an amount (which shall be deemed to be a monetary value in the Settlement Currency) equal to the Certificate Value at the Valuation Time on the relevant Valuation Date provided that the amount shall not be less than zero.
Valuation Time:	The time with reference to which the Index Calculator calculates the closing level of the Index
Valuation Date:	The last Trading Day of March each year commencing at least one calendar year after the Issue Date (each a " Valuation Date ")
Expiration Date:	Not applicable, open ended
Early Termination:	The Issuer is entitled to terminate the Certificates on any Business Day upon 12 month's notice commencing 1 year after the Issue Date at the Early Termination Amount.
Early Termination Date:	The date specified in the notice notifying certificate holders that the Issuer wishes to terminate the certificates
Early Termination Amount:	For each Certificate an amount (which shall be deemed to be a monetary value in the Settlement Currency) equal to the Certificate Value at the Valuation Time on the Early Termination Date provided that the amount shall not be less than zero.
Extraordinary Early Termination Event:	If the total number of Shares comprised in the Index is less than the Minimum Number of Index Components, then the day on which this occurs shall be the Extraordinary Early Termination Date. Upon such Extraordinary Termination the Certificates terminate automatically against payment of the "Extraordinary Early Termination Amount".
Extraordinary Early Termination Amount:	For each Certificate an amount (which shall be deemed to be a monetary value in the Settlement Currency) equal to the Certificate Value at the Valuation Time on the Early Termination Date provided that the amount shall not be less than zero.
Adjustments Provisions:	The Calculation Agent may make adjustments to the terms of the Certificates if an event which affects the Underlying requires it. This may include an event which has a concentrating or diluting effect on the theoretical value of the Underlying.
Emerging Market Disruption Event Provisions:	(General moratorium in respect of banking activities in country of the

principal financial centre of the Relevant Currency

- (**Price Source Disruption**, including the failure to be able to obtain a rate of exchange between the Relevant Currency and the Settlement Currency
- (**Governmental Default** with respect to indebtedness for money borrowed or guaranteed by the country of the principal financial centre of the Relevant Currency
- (**Inconvertibility/non-transferrability** - de facto or de jures - of the Relevant Currency
- (**Nationalisation** in the country of the principal financial centre of the Relevant Currency
- (**Illiquidity** of the Relevant Currency
- (The **change in law** in the country of the principal financial centre of the Relevant Currency which may affect the ownership in and/or the transferability of the Relevant Currency
- (The **imposition of any tax and/or** levy with punitive character which is imposed in the country of the principal financial centre of the Relevant Currency
- (The **unavailability of the Settlement Currency** in the country of the principal financial centre of the Relevant Currency

For the purposes of the above the following definition(s) shall apply:

“Relevant Currency” means the lawful currency of Thailand, Korea and Malaysia respectively, from time to time.

The Calculation Agent may make such adjustments to the Conditions in order to account for any such event if it consider it appropriate to do so and the Valuation Date may be adjusted accordingly provided that if after 180 Trading Days a disruption / adjustment event is subsisting then in that case (i) the 180th Trading Day shall be deemed to be the Valuation Date (regardless of the Market Disruption Event); and (ii) the Calculation Agent shall determine the Final Reference Index Level (which may be zero) having regard to the then prevailing market conditions, the last reported trading price of the Underlying Index and such other factors as the Calculation Agent determines to be relevant.

Settlement:	Cash Settlement in case of Exercise and Early Termination and Extraordinary Early Termination
Settlement Date:	5 Business Days following the Valuation Date or the Early Termination Date or Extraordinary Early Termination Date
Business Day:	London and Clearing Agent
Business Day Convention:	Following
Trading Day:	Any day on which the Index Calculator calculates and publishes the closing level of the Index according to its rules
Form:	Global Bearer: Permanent
Applicable law:	English

Disclaimer

WARNING: This term sheet is for information purposes only and does not constitute an offer to sell or a solicitation to buy any security or other financial instrument. All prices are indicative and dependent upon market conditions and the terms are liable to change and completion in the final documentation.

WARNING: The contents of this document have not been reviewed by any regulatory authority in the countries in which it is distributed. Investors are advised to exercise caution in relation to the offer. If you are in doubt about any of the contents of this document, you should obtain independent professional advice.

Due to the proprietary nature of this proposal please understand that it is confidential. This material is intended solely for the use of the intended recipient(s) and the contents may not be reproduced, redistributed, or copied in whole or in part for any purpose without the express authority of ABN AMRO.

Any purchase of the Certificates should be made on the understanding that the purchaser shall be deemed to acknowledge, represent, warrant and undertake to ABN AMRO that (i) it consents to the provision by ABN AMRO to any governmental or regulatory authority of any information regarding it and its dealings in the Certificates as required under applicable regulations and/or as requested by any governmental or regulatory authority; and (ii) it agrees to promptly provide to ABN AMRO, or directly to the relevant governmental or regulatory authority (and confirm to ABN AMRO when you have done so), such additional information that ABN AMRO deems necessary or appropriate in order for ABN AMRO to comply with any such regulations and/or requests.

From time to time the Issuer may enter into and receive the benefit of generic commission, discount and rebate arrangements from hedge providers and other transaction counterparties, and reserves the right to retain any such amounts received without any obligation to pass the benefit of the rebates to investors in the Certificates.

The information set out in this document is a summary of some of the key features of the Certificates. This summary should be read in conjunction with, and is qualified in its entirety by reference to, the full terms and conditions of the Certificates.

Selling restrictions

General. No action has been taken or will be taken by the Issuer that would permit a public offering of the Certificates or possession or distribution of any offering material in relation to the Certificates in any jurisdiction where action for that purpose is required. No offers, sales or deliveries of any Certificates, or distribution of any offering material relating to the Certificates, may be made in or from any jurisdiction except in circumstances that would result in compliance with any applicable laws and regulations and would not impose any obligation on the Issuer.

US, Netherlands and UK. The Certificates may not be offered or sold within the United States or the Netherlands or, to or for the benefit of, US persons, Dutch persons or private customers in the United Kingdom

Risk factors

Investment in the Certificates involves significant risks and while the following summary of certain of these risks should be carefully evaluated before making an investment in the Certificates, the following does not intend to describe all possible risks of such an investment:

- (a) **Open End Certificates.** Open End Certificates are investment instruments which, at exercise or termination pay an amount equal to the level of the Underlying subject to the certificate entitlement, foreign exchange rate and expenses. As such, they entail the same level of risk as a direct investment in the Underlying. Investors should be aware that their entire investment may be lost, in the event that the Underlying is valued at zero. The investor should be aware that the issuer is entitled to terminate the Certificates under certain circumstances against payment of a termination Amount. In the event of termination, unlike direct investments, as the certificates now have a limited term, investors are not able to hold them beyond the termination date in the expectation of a recovery in the price of the Underlying
- (b) **Investment Risks.** The price at which a holder will be able to sell Certificates prior to exercise or termination may be at a potentially substantial discount to the market value of the Certificates at the issue date, if, at such time and in addition to any other factors, the value of the Underlying is below, equal to or not sufficiently above the value of the Underlying at the issue date.

The price of the Certificates may fall in value as rapidly as it may rise and investors may not get back the amount invested. The price of the Certificates may be affected by a number of factors, including changes in the value and volatility of the Underlying, the creditworthiness of the Issuer, changes in foreign exchange rates and economic, financial and political events that are difficult to predict. The past performance of the Underlying or other securities or derivatives should not be taken as an indication of the future performance of the Underlying or other securities or derivatives during the term of the Certificates.

- (c) **Suitability of the Certificates.** The purchase of the Certificates involves certain risks including market risk, credit risk and liquidity risk. Investors should ensure that they understand the nature of all these risks before making a decision to invest in the Certificates. Investors should carefully consider whether the Certificates are suitable for them in light of their experience, objectives, financial position and other relevant circumstances. If in any doubt, investors should obtain relevant and specific professional advice before making any investment decision. In structuring, issuing and selling the Certificates, ABN AMRO is not acting in any form of fiduciary or advisory capacity.

- (d) **Creditworthiness of Issuer.** The Certificates constitute general unsecured contractual obligations of the Issuer and of no other person. Investors in the Certificates are relying upon the creditworthiness of the Issuer and have no rights under the Certificates against any other person.
- (e) **Secondary market trading.** No assurance can be given that any trading market for the Certificates will exist or whether any such market will be liquid or illiquid. While the Issuer expects to make a market in the Certificates, it is not obliged to do so. Any market making activity if commenced may be discontinued at any time. If the Certificates are not traded on any exchange, pricing information may be more difficult to obtain and the liquidity and price of the Certificates may be adversely affected.
- (f) **Conflicts of interest.** ABN AMRO and its officers and employees may from time to time (i) have long or short positions in the Underlying or other securities or derivatives that may affect the value of the Certificates; and/or (ii) possess or acquire material information about the Certificates, the Underlying or other securities or derivatives that may affect the value of the Certificates. If applicable, ABN AMRO may at any time solicit or provide investment banking, commercial banking, credit, advisory or other services to the issuer of the Underlying. Such activities and information may cause consequences that are adverse to the interests of the investors in the Certificates or otherwise create various potential and actual conflicts of interest. ABN AMRO has no obligation to disclose such activities or information or other potential and actual conflicts of interest and may engage in any such activities without regard to the interests of the investors in the Certificates or the effect that such activities may directly or indirectly have on the Certificates.
- (g) **Early termination.** The Issuer may terminate the Certificates if it determines that it has become unlawful for the Issuer to perform its obligations under the Notes or its ability to source a hedge or unwind an existing hedge in respect of the Certificates is adversely affected in any material respect. If the Issuer terminates early the Certificates, the Issuer will, if and to the extent permitted by applicable law, pay a holder of the certificates an amount determined to be its fair market value immediately before such termination notwithstanding such circumstances less the actual cost to the Issuer of unwinding any underlying related hedging arrangements.
- (h) **Hedging activities.** Notwithstanding any communication that you may have had with ABN AMRO in respect of the manner in which ABN AMRO may establish, maintain, adjust or unwind the Hedge Positions (i) ABN AMRO may in its absolute discretion determine when, how or in what manner it may establish, maintain or adjust or unwind its Hedge Positions; (ii) ABN AMRO may, but is not obliged to, hedge the Certificates dynamically by holding a corresponding position in the Underlying or any other securities, derivatives or otherwise; (iii) any Hedge Positions are the proprietary trading positions of ABN AMRO and are not held on your behalf or as your agent.
- (i) **Quanto feature.** If applicable, the quanto feature cancels the currency exposure on the product payoff at exercise or termination. Hence, on maturity or expiration, a product denominated in a currency different to the underlying asset(s) currency, will have its payoff calculated only on the performance of the underlying asset(s), with no account taken for the exchange rate between the two currencies at such time. During the life of the product, this non-exposure to currency may come at a cost or benefit depending on the difference between the domestic and foreign interest rates and the exchange rate between the two currencies.
- (j) **Averaging.** If applicable, prospective purchasers or holders of the Securities should be aware that the calculation of the final redemption formula is not based on a single closing level of the Underlying, but on the average of the closing levels of the Underlying on the averaging dates. This may have the effect that the final calculation level can be well below the price of the Underlying at exercise.
- (k) **Adjustments.** The Issuer may make adjustments to the terms of the Certificates if an event which affects an underlying asset requires it. This may include any event which has or may have a concentrating or diluting effect on the theoretical value of any underlying asset, including, without limitation, any cash dividend or other cash distribution, stock dividend, bonus issue, rights issue, or extraordinary dividends, or the insolvency of the issuer of the Underlying, nationalisation of the assets of the issuer of the Underlying and delisting or suspension of the Underlying.
- (l) **Market Disruption.** The Calculation Agent for the Certificates may determine that a market disruption event has occurred or exists at a relevant time. Any such determination may affect the value of the Certificates and/or delay settlement in respect of the Certificates. A Market Disruption Event includes any suspension or limitation of trading on the Exchange or any Related Exchange, the declaration of a general moratorium in respect of banking activities in the country where the Exchange or any Related Exchange is located and the inability of ABN AMRO to unwind its hedge or related trading position relating to the Underlying due to illiquidity. Upon the occurrence of Market Disruption Event, the determination of the closing price of the Underlying will be made on the first succeeding exchange business day on which there is no Market Disruption Event whereas such Market Disruption Event has continued for five consecutive exchange business days after the original determination date such fifth exchange business day is deemed to be the Valuation Date and the Calculation agent shall determine the good faith estimate of the value for the Underlying on such exchange business day. The final settlement date (or the settlement date in respect of an early termination or redemption date) will be delayed accordingly.
- (m) **FX market disruption.** If applicable, investors should note that all payments on expiry or a secondary market purchase by the Issuer are subject to the ability of the Issuer to (i) sell the underlying asset(s); (ii) convert the currency of an underlying asset into the currency of the Certificates; and (iii) transfer the currency of the Certificates from accounts in the country where an underlying asset is located to accounts outside that country. The occurrence of any of these events may affect the value of the Certificates and and/or delay settlement in respect of the Certificates or, if such events result in settlement being delayed for the period specified in the terms and conditions for the Certificates, may result in all obligations of the Issuer in respect of the Certificates being extinguished.
- (n) **Emerging markets.** If applicable, investing in emerging markets involves certain risks and special considerations not typically associated with investing in other more established economies or securities markets. Such risks may include (i) the risk of nationalization or expropriation of assets or confiscatory taxation; (ii) social, economic and political uncertainty; (iii) dependence on exports and the corresponding importance of international trade and commodities prices; (iv) less liquidity of securities markets; (v) currency exchange rate fluctuations; (vi) potentially higher rates of inflation (including hyper-inflation); (vii) controls on investment and limitations on repatriation of invested capital; (viii) a higher degree of governmental involvement in and control over the economies; (ix) government decisions to discontinue support for economic reform programs and imposition of centrally planned economies; (x) differences in auditing and financial reporting standards which may result in the unavailability of material information about economics and issuers; (xi) less extensive regulatory oversight of securities markets; (xii) longer settlement periods for securities transactions; (xiii) less stringent laws regarding the fiduciary duties of officers and directors and protection of investors; and (xiv) certain consequences regarding the maintenance of portfolio securities and cash with sub-custodians and securities depositories in emerging market countries.
