

Transfer of securities to BNP Paribas Arbitrage Issuance B.V. ("BNPP IBV") pursuant to Part VII of the UK Financial Services and Markets Act 2000

On 19 November 2015, The Royal Bank of Scotland plc (with its registered office at 36 St Andrew Square, Edinburgh, Scotland) ("**RBS**") and BNP Paribas S.A. (incorporated in France and with its registered office at 16, Boulevard des Italiens, 75009 Paris, France) ("**BNPP**"), acting through its London Branch, announced that the Court of Session in Scotland had approved and sanctioned the implementation of a banking business transfer scheme, whereby certain assets and liabilities related to RBS's structured retail investor products and equity derivatives business would be transferred to BNPP pursuant to Part VII of the UK Financial Services and Markets Act 2000 (the "**Part VII Scheme**").

The Part VII Scheme took effect on 7 December 2015 (the "Effective Date").

On the Effective Date, BNPP, acting through its London Branch, became the issuer of those securities originally issued by RBS that were transferred pursuant to the Part VII Scheme. Immediately after the transfer of those securities to BNPP, acting through its London Branch, the role of the issuer under those securities was transferred, also under the terms of the Part VII Scheme, to BNPP IBV, a wholly owned subsidiary of BNPP. As part of the Part VII Scheme, BNPP guarantees all the obligations of BNPP IBV arising in respect of the transferred securities.

Under the Part VII Scheme, amendments were made to the terms of the transferring securities and to agreements related to them from the Effective Date in order to give effect to the Part VII Scheme, including (but not limited to) references to "RBS", in its capacity as issuer of the transferred securities, being construed as references to "BNPP IBV".

Details of the securities that have transferred under the Part VII Scheme as well as further information on the Part VII Scheme generally can be viewed at <u>http://warrants.bnpparibas.com/</u>

Transfers of securities to RBS plc pursuant to Part VII of the UK Financial Services and Markets Act 2000

On 6 February 2010 ABN AMRO Bank N.V. (registered with the Dutch Chamber of Commerce under number 33002587) changed its name to The Royal Bank of Scotland N.V. ("**RBS N.V.**") and on 1 April 2010 ABN AMRO Holding N.V. changed its name to RBS Holdings N.V.

On 23 September 2011, RBS N.V. and The Royal Bank of Scotland plc (with its registered office at 36 St Andrew Square, Edinburgh, Scotland) ("**RBS plc**") announced that the Court of Session in Scotland had approved and sanctioned the implementation of a banking business transfer scheme whereby eligible business carried on in the United Kingdom by RBS N.V. would be transferred to RBS plc pursuant to Part VII of the UK Financial Services and Markets Act 2000 (the "**Part VII Scheme**"). The Part VII Scheme took effect on 17 October 2011 (the "**Effective Date**").

From the Effective Date, RBS plc became the issuer of those securities originally issued by RBS N.V. which were transferred to RBS plc pursuant to the Part VII Scheme. Under the Part VII Scheme, amendments were made to the terms of the transferring securities and to agreements related to them from the Effective Date in order to give effect to the Part VII Scheme, including (but not limited to) references to "RBS N.V." being construed as references to "RBS plc". Details of these amendments are set out in the Scheme Document which can be viewed at <u>http://www.investors.rbs.com/RBS NV</u>.

For details of which securities were transferred to RBS plc pursuant to the Part VII Scheme, investors should refer to <u>http://www.investors.rbs.com/RBS_NV</u> or, for securities issued from on or about 21 July 2011, investors should refer to the terms of the issue or offer documents (including term-sheets) (if they indicate that RBS plc was expected to become the issuer of the securities as a result of the Part VII Scheme, then RBS plc has become the issuer, unless the securities have been exercised, redeemed or repurchased and cancelled prior to the implementation of the Part VII Scheme).

For further details of the Part VII Scheme generally, investors should refer to <u>http://www.investors.rbs.com/RBS_NV</u>.

	The Issuer is entitled to terminate the Certificates under certain conditions.		
Certificate Value:	An amount determined by the Calculation Agent in accordance with the following formula:		
	(i) On the Pricing Date: CV ₀ = Initial Cash Amount		
	(ii) On any Trading Day t:		
	$CV_{t} \Box I_{t} \Box \frac{CV_{t \Box 1}}{I_{t \Box 1}} \Box \frac{FX_{t}}{FX_{t \Box 1}} \Box \Box \Box \Box F \Box DCF \Box \Box 1, t \Box \Box$		
	Where: CV_t = certificate value in respect of a Trading Day t, Valuation Date, Early Termination Date or Extraordinary Early Termination Date, as applicable CV_{t-1} = certificate value on previous Trading Day t-1except during a Final Allocation Period when this is the Certificate Value on the immediately preceding Trading Day before the Valuation Date, Early Termination Date or Extraordinary Early Termination Date, as applicable I_t = closing level of the Index on Trading Day t except during a Final Allocation Period when this is an amount (which shall be deemed to be a monetary value in the Settlement Currency) determined by the Calculation Agent in its sole and absolute discretion to be the fair value price for the Underlying as determined by the Calculation Agent by reference to unwinding of hedging positions on a best effort basis during the Final Allocation Period I_{t-1} = closing level of the Index on previous Trading Day t-1 except during a Final Allocation Period when this is the closing level of the Index on the immediately preceding Trading Day before the Valuation Date, Early Termination Date or Extraordinary Early Termination Date, as applicable F = Fee Rate DCF(t-1,t) = day count fraction between (t-1) and t Trading Days FX_t = FX Rate on Trading Day t except during a Final Allocation Period when this is an amount as determined by the Calculation Agent in its sole and absolute		
	discretion to be the fair value price for the FX rate as determined by the Calculation Agent during the Final Allocation Period $FX_{t-1} = FX$ Rate on previous Trading Day t-1 except during a Final Allocation Period when this is the FX Rate on the immediately preceding Trading Day before the Valuation Date, Early Termination Date or Extraordinary Early Termination Date, as applicable		
Final Allocation Period:	A reasonable period as determined by the Issuer in its sole and absolute discretion commencing from the Valuation Date, Early Termination Date or Extraordinary Early Termination Date, as the case may be, which period shall be determined by liquidity in the underlying market and shall not be greater than 5 consecutive Trading Days (and excluding for this purpose any period during which a Market Disruption Event is continuing).		
Day Count Fraction (" DCF ")	The number of calendar days between the relevant Trading Day (including) and the previous Trading Day (excluding) divided by 360		
Fee Rate:	1.5% per annum except during the Final Allocation Period when the Fee Rate is zero		
FX Rate:	VND/USD fixings price as quoted on Bloomberg page WMCO (currently published at 3 p.m. London Time)		
Exercise:	Investors are entitled to exercise the Certificates on an annual basis on specified Exercise Dates		
Exercise Date:	Three Business Days prior to a scheduled Valuation Date		
Exercise Settlement Amount:	For each Certificate duly exercised, an amount (which shall be deemed to be a monetary value in the Settlement Currency) equal to the Certificate Value at the Valuation Time on the relevant Valuation Date provided that the amount shall not be less than zero.		

Valuation Time:	The time with reference to which the Index Calculator calculates the closing level of the Index
Valuation Date:	The last Trading Day of March each year commencing at least one calendar year after the Issue Date (each a "Valuation Date")
Expiration Date:	Not applicable, open ended
Early Termination:	The Issuer is entitled to terminate the Certificates on any Business Day upon 1 day notice commencing 1 Business day after the Issue Date at the Early Termination Amount.
Early Termination Date:	The date specified in the notice notifying certificate holders that the Issuer wishes to terminate the certificates
Early Termination Amount:	For each Certificate an amount (which shall be deemed to be a monetary value in the Settlement Currency) equal to the Certificate Value at the Valuation Time on the Early Termination Date provided that the amount shall not be less than zero.
Extraordinary Early Termination Event:	If the total number of Shares comprised in the Index is less than the Minimum Number of Index Components, then the day on which this occurs shall be the Extraordinary Early Termination Date. Upon such Extraordinary Termination the Certificates terminate automatically against payment of the Extraordinary Early Termination Amount.
Extraordinary Early Termination Amount:	For each Certificate an amount (which shall be deemed to be a monetary value in the Settlement Currency) equal to the Certificate Value at the Valuation Time on the Extraordinary Early Termination Date provided that the amount shall not be less than zero.
Adjustments Provisions:	The Calculation Agent may make adjustments to the terms of the Certificates if an event which affects the Underlying requires it. This may include an event which has a concentrating or diluting effect on the theoretical value of the Underlying.
Emerging Market Disruption Event Provisions:	General moratorium in respect of banking activities in country of the principal financial centre of the Relevant Currency
	Price Source Disruption, including the failure to be able to obtain a rate of exchange between the Relevant Currency and the Settlement Currency Governmental Default with respect to indebtedness for money borrowed or guaranteed by the country of the principal financial centre of the Relevant Currency
	Inconvertability/non-transferrability - de facto or de jures - of the Relevant Currency
	Nationalisation in the country of the principal financial centre of the Relevant Currency
	Illiquidity of the Relevant Currency
	The change in law in the country of the principal financial centre of the Relevant Currency which may affect the ownership in and/or the transferability of the Relevant Currency
	The imposition of any tax and/or levy with punitive character which is imposed in the country of the principal financial centre of the Relevant Currency
	The unavailability of the Settlement Currency in the country of the principal financial centre of the Relevant Currency
	For the purposes of the above the following definition(s) shall apply:
	"Relevant Currency" means the lawful currency of Vietnam, from time to time.
	The Calculation Agent may make such adjustments to the Conditions in order to account for any such event if it consider it appropriate to do so and the Valuation Date may be adjusted accordingly provided that if after 180 Trading Days a disruption / adjustment event is subsisting then in that case (i) the 180th Trading Day shall be deemed to be the Valuation Date (regardless of the Market Disruption Event); and (ii) the Calculation Agent shall determine the Final Reference Index Level (which may be zero) having regard to the then prevailing market conditions,
	the last reported trading price of the Underlying Index and such other factors as the

	Calculation Agent determines to be relevant.

Selling restrictions

General. No action has been taken or will be taken by the Issuer that would permit a public offering of the Certificates or possession or distribution of any offering material in relation to the Certificates in any jurisdiction where action for that purpose is required. No offers, sales or deliveries of any Certificates, or distribution of any offering material relating to the Certificates, may be made in or from any jurisdiction except in circumstances that would result in compliance with any applicable laws and regulations and would not impose any obligation on the Issuer.

These Securities may not be offered or sold (i) to any person/entity listed on sanctions lists of the European Union, United States or any other applicable local competent authority; (ii) within the territory of Cuba, Sudan, Iran and Myanmar; (iii) to residents in Cuba, Sudan, Iran or Myanmar; or (iv) to Cuban Nationals, wherever located.

US, Netherlands and UK. The Certificates may not be offered or sold within the United States or the Netherlands or, to or for the benefit of, US persons or private customers in the United Kingdom

Risk factors

Investment in the Certificates involves significant risks and while the following summary of certain of these risks should be carefully evaluated before making an investment in the Certificates, the following does not intend to describe all possible risks of such an investment:

- (a) Open End Certificates. Open End Certificates are investment instruments which, at exercise or termination pay an amount equal to the level of the Underlying subject to the certificate entitlement, foreign exchange rate and expenses. As such, they entail the same level of risk as a direct investment in the Underlying. Investors should be aware that their entire investment may be lost, in the event that the Underlying is valued at zero. The investor should be aware that the issuer is entitled to terminate the Certificates under certain circumstances against payment of a termination Amount. In the event of termination, unlike direct investments, as the certificates now have a limited term, investors are not able to hold them beyond the termination date in the expectation of a recovery in the price of the Underlying.
- (b) Investment Risks. The price at which a holder will be able to sell Certificates prior to exercise or termination may be at a potentially substantial discount to the market value of the Certificates at the issue date, if, at such time and in addition to any other factors, the value of the Underlying is below, equal to or not sufficiently above the value of the Underlying at the issue date.

The price of the Certificates may fall in value as rapidly as it may rise and investors may not get back the amount invested. The price of the Certificates may be affected by a number of factors, including changes in the value and volatility of the Underlying, the creditworthiness of the

Issuer, changes in foreign exchange rates and economic, financial and political events that are difficult to predict. The past performance of the Underlying or other securities or derivatives should not be taken as an indication of the future performance of the Underlying or other securities or derivatives during the term of the Certificates..

- (c) Suitability of the Certificates. The purchase of the Certificates involves certain risks including market risk, credit risk and liquidity risk. Investors should ensure that they understand the nature of all these risks before making a decision to invest in the Certificates. Investors should carefully consider whether the Certificates are suitable for them in light of their experience, objectives, financial position and other relevant circumstances. If in any doubt, investors should obtain relevant and specific professional advice before making any investment decision. In structuring, issuing and selling the Certificates, ABN AMRO is not acting in any form of fiduciary or advisory capacity.
- (d) Creditworthiness of Issuer. The Certificates constitute general unsecured contractual obligations of the Issuer and of no other person. Investors in the Certificates are relying upon the creditworthiness of the Issuer and have no rights under the Certificates against any other person.
- (e) Secondary market trading. No assurance can be given that any trading market for the Certificates will exist or whether any such market will be liquid or illiquid. While the Issuer expects to make a market in the Certificates, it is not obliged to do so. Any market making activity if commenced may be discontinued at any time. If the Certificates are not traded on any exchange, pricing information may be more difficult to obtain and the liquidity and price of the Certificates may be adversely affected.
- (f) Conflicts of interest. ABN AMRO and its officers and employees may from time to time (i) have long or short positions in the Underlying or other securities or derivatives that may affect the value of the Certificates; and/or (ii) possess or acquire material information about the Certificates, the Underlying or other securities or derivatives that may affect the value of the Certificates. If applicable, ABN AMRO may at any time solicit or provide investment banking, commercial banking, credit, advisory or other services to the issuer of the Underlying. Such activities and information may cause consequences that are adverse to the interests of the investors in the Certificates or otherwise create various potential and actual conflicts of interest. ABN AMRO has no obligation to disclose such activities or information or other potential and actual conflicts of interest and may engage in any such activities without regard to the interests of the investors in the Certificates or the effect that such activities may directly or indirectly have on the Certificates.
- (g) Early termination. The Issuer may terminate the Certificates if it determines that it has become unlawful for the Issuer to perform its obligations under the Notes or its ability to source a hedge or unwind an existing hedge in respect of the Certificates is adversely affected in any material respect. If the Issuer terminates early the Certificates, the Issuer will, if and to the extent permitted by applicable law, pay a holder of the certificates an amount determined to be its fair market value immediately before such termination notwithstanding such circumstances less the actual cost to the Issuer of unwinding any underlying related hedging arrangements.
- (h) Hedging activities. Notwithstanding any communication that you may have had with ABN AMRO in respect of the manner in which ABN AMRO may establish, maintain, adjust or unwind the Hedge Positions (i) ABN AMRO may in its absolute discretion determine when, how or in what manner it may establish, maintain or adjust or unwind its Hedge Positions; (ii) ABN AMRO may, but is not obliged to, hedge the Certificates dynamically by holding a corresponding position in the Underlying or any other securities, derivatives or otherwise; (iii) any Hedge Positions are the proprietary trading positions of ABN AMRO and are not held on your behalf or as your agent.
- (i) Adjustments. The Issuer may make adjustments to the terms of the Certificates if an event which affects an underlying asset requires it. This may include any event which has or may have a concentrating or diluting effect on the theoretical value of any underlying asset, including, without limitation, any cash dividend or other cash distribution, stock dividend, bonus issue, rights issue, or extraordinary dividends, or the insolvency of the issuer of the Underlying, nationalisation of the assets of the issuer of the Underlying and delisting or suspension of the Underlying.
- (j) Market disruption. The Calculation Agent for the Certificates may determine that a market disruption event has occurred or exists at a relevant time. Any such determination may affect the value of the Certificates and/or delay settlement in respect of the Certificates. A Market Disruption Event includes any suspension or limitation of trading on the Exchange or any Related Exchange, the declaration of a general moratorium in respect of banking activities in the country where the Exchange or any Related Exchange is located and the inability of ABN AMRO to unwind its hedge or related trading position relating to the Underlying due to illiquidity. Upon the occurrence of Market Disruption Event, the determination of the closing price of the Underlying will be made on the first succeeding exchange business day on which there is no Market Disruption Event whereas such Market Disruption Event has continued for five consecutive exchange business days after the original determination date such fifth exchange business day is deemed to be the Valuation Date and the Calculation agent shall determine the good faith estimate of the value for the Underlying on such exchange business day. The final settlement date (or the settlement date in respect of an early termination or redemption date) will be delayed accordingly.
- (k) FX market disruption. If applicable, investors should note that all payments on expiry or a secondary market purchase by the Issuer are subject to the ability of the Issuer to (i) sell the underlying asset(s); (ii) convert the currency of an underlying asset into the currency of the Certificates; and (iii) transfer the currency of the Certificates from accounts in the country where an underlying asset is located to accounts outside that country. The occurrence of any of these events may affect the value of the Certificates and and/or delay settlement in respect of the Certificates or, if such events result in settlement being delayed for the period specified in the terms and conditions for the Certificates, may result in all obligations of the Issuer in respect of the Certificates being extinguished.
- (I) Emerging markets. If applicable, investing in emerging markets involves certain risks and special considerations not typically associated with investing in other more established economies or securities markets. Such risks may include (i) the risk of nationalization or expropriation of assets or confiscatory taxation; (ii) social, economic and political uncertainty; (iii) dependence on exports and the corresponding importance of international trade and commodities prices; (iv) less liquidity of securities markets; (v) currency exchange rate fluctuations; (vi) potentially higher rates of inflation (including hyper-inflation); (vii) controls on investment and limitations on repatriation of invested capital; (viii) a higher degree of governmental involvement in and control over the economies; (ix) government decisions to discontinue support for economic reform programs and imposition of centrally planned economics; (xi) differences in auditing and financial reporting standards which may result in the unavailability of material information about economics and issuers; (xi) less extensive regulatory oversight of securities markets; (xii) longer settlement periods for securities transactions; (xiii) less stringent laws regarding the fiduciary duties of officers and directors and protection of investors; and (xiv) certain consequences regarding the maintenance of portfolio securities and cash with sub-custodians and securities depositories in emerging market countries.
- (m) Quanto feature. If applicable, the quanto feature cancels the currency exposure on the product payoff at exercise or termination. Hence, on maturity or expiration, a product denominated in a currency different to the underlying asset(s) currency, will have its payoff calculated only on the performance of the underlying asset(s), with no account taken for the exchange rate between the two currencies at such time. During the

life of the product, this non-exposure to currency may come at a cost or benefit depending on the difference between the domestic and foreign interest rates and the exchange rate between the two currencies.

(n) Averaging. If applicable, prospective purchasers or holders of the Securities should be aware that the calculation of the final redemption formula is not based on a single closing level of the Underlying, but on the average of the closing levels of the Underlying on the averaging dates. This may have the effect that the final calculation level can be well below the price of the Underlying at exercise.

APPENDIX B- ABN AMRO Vietnam Index Description ("Index Description")

1. Definitions

"**ADT 3M**" means the average daily value traded of a Security. The ADT 3M is calculated on the basis of the last 3 months in USD or the equivalent amount in another currency calculated by applying the Exchange Rate. The ADT 3M is provided by Bloomberg using the <AVG_DAILY_VALUE_TRADED_3M> function or an equivalent. If the Security has been listed for less than 3 months but more than 1 month, the ADT 3M will be calculated on the basis of all the Share's trading days in USD or the equivalent amount in another currency calculated by applying the Exchange Rate. If the Security has been listed for less than 1 month, the ADT 3M will be deemed to be USD 0;

"Authorised Assets" means any Security in a company which is traded on a Relevant Exchange in a Regulated Market in an Authorised Country;

"Authorised Country" means Vietnam;

"Business Day" means any day (other than a Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments in London and New York;

"Cross-ownership" means holdings by a Share Company, which for the time being is included in the Index, in another Qualifying Share Company;

"De-listing Date" means any Trading Day on which a De-listing Event occurs, subject to a Market Disruption Event;

"**De-listing Event**" means an Index Component for any reason ceases to be listed or is suspended from listing on the Relevant Exchange (and such cessation or suspension is continuing and such Index Component is not subsequently listed or quoted on another stock exchange or quotation system which is regulated and/or supervised by an official financial and/or governmental authority) on the same Trading Day.

"Exchange Rate" means the prevailing rate of exchange between the currency in which the relevant Share is traded and the Settlement Currency as determined by the Index Calculator on the relevant date;

"Foreign Ownership Limit Date" means any Trading Day on which a Foreign Ownership Limit Event occurs, subject to a Market Disruption Event;

"Foreign Ownership Limit Event" means that the Issuer, acting in good faith, and at its sole and absolute discretion, determines that it cannot adequately hedge any part of its exposure to any, or all, of the Shares as a result of the Foreign Ownership Restrictions;

"Foreign Ownership Restrictions" means any restriction, quota or limit, if any, imposed by any governmental authority on the percentage of the share capital or of units in a company that can be owned by foreign investors;

"Foreign Ownership Headroom" means, in respect of each Security, the number of Securities that can be bought by a foreign investor under Foreign Ownership Restrictions, as determined by the Index Sponsor in its sole and absolute discretion, multiplied by the Price of the Security;

- Illiquidity. It is impossible to obtain a firm quote for the Exchange Rate for an amount which the Index Sponsor considers necessary to discharge its obligations under the Securities; or
- A change in law in the country of the principal financial centre of the Underlying Currency which may affect the ownership in and/or the transferability of the Underlying Currency; or
- The imposition of any tax and/or levy with punitive character which is imposed in the country of the principal financial centre of the Underlying Currency; or
- The unavailability of the Settlement Currency in the country of the principal financial centre of the Underlying Currency; or
- Limitations on repatriation of invested capital in the country of the principal financial centre of the Underlying Currency; or
- Any event regarding the maintenance of portfolio securities and cash with sub-custodians and securities depositories in the country of the Underlying Currency which deprives the Index Sponsor (or any of its affiliates) of all or substantially all of its assets in the country of the principal financial centre of the Underlying Currency; or
- Bankruptcy. The Share Company files for liquidation and the Shares cease to trade or are de-listed;

"Minimum Number of Index Components" means 8 Shares;

"Number of Shares i" means in relation to each Share i:

(A) on the Index Launch Date:

Initial Index Value

Weight i x _____

Price i

(B) on each Re-weighting Date:

Weight i x

Index Value before Re-weighting

Index Description - 2

Price i

(C) on each De-listing Date, Removal Date, Foreign Ownership Limit Date or Technical Constraints Date concerning Share i:

(i) if Share j is substituted by Share k

Number of Shares_{k,new} = Number of Shares_{j,old} $\times \frac{\text{Price}_{j}}{\text{Price}_{k}}$

(ii) if Share j is not substituted, for all Shares i in the Index: Number of Shares_{i.new} = Number of Shares_{i.old}

+ Number of Shares_{j,old} ×
$$\frac{\text{Price}_{j}}{\text{Price}_{i}}$$
 × $\frac{\text{Number of Shares}_{i,old} \times \text{Price}_{i}}{\sum_{n \text{ Index Components}} \text{Number of Shares}_{n,old} \times \text{Price}_{n}}$

"Price" means in respect of each Security the official closing price on the Relevant Exchange on the respective Trading Day (if not expressed in the Settlement Currency, converted into the Settlement Currency using the Exchange Rate);

"Technical Constraints Event" means that the Index Sponsor may, but is not obliged to, refuse to include in the Index such Index Components selected following the Index Selection Procedure for notional inclusion in the Index which do not comply with the Selection Procedure or due to Technical Constraints;

"Technical Constraints Date" means any Trading Day on which a Technical Constraint Event occurs, subject to a Market Disruption Event;

"**Trading Day**" means any day that is (or, but for the occurrence of a Market Disruption Event, would have been) a trading day on the Relevant Exchange other than a day on which trading on such Relevant Exchange is scheduled to close prior to its regular weekday closing time;

"Underlying Currency" means the currency in which the relevant Share is denominated;

"Weight i" means for each Share I, based on modified market capitalisation and subject to a maximum of 20% on the Index Launch Date and on each Re-weighting Date (weights in excess of 20% are redistributed pro rata among the other Shares):

Weight i =
$$\frac{\text{Market Capitalisation i}}{\sum_{\text{Index Components}} \text{Market Capitalisations}}$$

2. General Description

The Index is a Price Return Index designed to reflect the performance of the Securities of Vietnamese companies (each such company a "**Vietnamese Company**" and together referred to as the "**Vietnamese Companies**") that are included in the Index. Only ordinary or preference shares, American Depository Receipts or Global Depository Receipts of such Vietnamese Companies are eligible for inclusion in the Index. Furthermore, Vietnamese companies with Foreign Ownership Restrictions where the utilisation does not meet criteria set in 4 (ii-c), may not be included in the Index.

The Index Calculator will make determinations as regards the Securities which are eligible for inclusion within the Index on the basis of the criteria set in Section 4 and will determine the quantity of such Securities to be included. In addition, on the basis of the formula for and method of calculating the Index (see section 5 below), the Index Calculator will calculate and publish the Index Value as set out below.

The Index Components will initially be modified market capitalisation weighted, with a maximum weight of 20%.

The Index shall comprise at any time the Minimum Number of Index Components and ceases to be calculated if there are less than 8 Qualifying Share Companies.

3. Initial Index Composition and Minimum Number of Index Components

The Index will initially comprise the Shares of the following 14 companies selected by the Index Calculator from Qualifying Shares on the Index Launch Date.

On the Index Launch Date the value of the Index will be VND 1000 ("Initial Index Value") and will be notionally composed of Shares in the following Share Companies:

4. Index Selection Criteria and Selection Procedure

To qualify for inclusion in the Index, each Security must meet the following selection criteria, together referred to as the "Selection Criteria":

- (i) The Security must qualify as an Authorised Asset; and
- (ii) At the date of selection only:
 - a. The company which is the issuer of a Security must have a market capitalisation greater than USD 100,000,000 (or the equivalent amount in another currency calculated by applying the Exchange Rate) as published on the respective Bloomberg page <Bloomberg Code Equity DES> ("Minimum Market Capitalisation"), if any; and
 - b. The Security must have an ADT 3M greater than USD 200,000 ("Minimum Liquidity"); and
 - c. The Security must have a Foreign Ownership Headroom greater than USD 20,000,000 ("Minimum Headroom").

and

(iii) Only those Securities which do not meet Technical Constraints will be included in the Index.

If any of the above mentioned data provider pages are not available, the Index Calculator shall take the data from a page replacing the stated page or if no replacement page is available from any other data provider as selected at the reasonable discretion of the Index Calculator. If, following the reasonable efforts of the Index Calculator it determines, in its sole and absolute discretion, that no data provider can provide the above mentioned data, the Index Calculator may determine not to include the Security on the basis that it does not meet the Selection Criteria.

A list shall be compiled of Qualifying Share Companies (such list, the "Selection List"). The Index Components are selected in accordance with the following selection procedure ("Selection Procedure"):

- (i) If a Qualifying Share Company has issued several classes of Securities, the Index Calculator shall take the class of Security which best represents the Qualifying Share Company, as determined by it at its sole and absolute discretion, and which complies with all of the Selection Criteria.
- (ii) The Qualifying Share Companies on the Selection List are ranked in descending order by their market capitalisation in USD (or the equivalent amount in another currency calculated by applying the Exchange Rate) as published on Bloomberg. The Qualifying Share Company with the highest market capitalisation is listed first with a rank equal to 1.
- (iii) If the Selection List comprises 15 or more Qualifying Share Companies, the top 15 Qualifying Share Companies using the above ranking, or, where the Selection List comprises less than 15 Qualifying Share Companies, all the Qualifying Share Companies, are included in the Index, and the respective Weight of each Index Component is calculated in accordance with the definition of "Weight i" in section 1.

5. Index Calculation

The value of the Index ("Index Value") will be calculated and published once a day by the Index Calculator on every Business Day t, subject to a Market Disruption Event on the under section 9 mentioned Reuters and/or Bloomberg reference page according to the following formula:

Index Value_t

=
$$\sum_{i=1}^{N}$$
 (Number of Shares)_{i,t} × (Price)_{i,t}

6. Re-weighting of the Index

Following the initial composition of the Index on the Index Launch Date, the Index Calculator will, on each Re-Weighting Date, review the notional composition of the Index and re-weight the Index Components (each such procedure a "**Re-weighting**") subject to the requirement that each of the newly selected Share meet the Selection Criteria.

The Index Components shall be notionally re-weighted with effect from the Re-weighting Date, subject to the occurrence of a Market Disruption Event.

The basis for a re-weighting shall be the Prices of the Shares from the Re-weighting Date.

(Index Value) before Re-weighting = (Index Value) after Re-weighting

If on any Trading Day during the period from (and including) the preceding Re-weighting Date to (but excluding) the current Re-weighting Date a De-listing Event, Removal Event or Technical Constraint Event has occurred and the number of Index Components is below the Target Number, the number of the Index Components may be increased up to the Target Number of Components on the current Re-weighting Date according to the Selection Procedure.

In the event that a Market Disruption Event has occurred in relation to any actual or prospective Index Component on any Re-weighting Date, then such actual or prospective Index Component shall not be so included or removed, as the case may be, in the relevant Re-weighting.

7. ABN AMRO Index Committee

The ABN AMRO Index Committee may meet on a semi-annual basis and at other times at the request of the committee members. The principal purpose of the ABN AMRO Index Committee is to decide, amongst other things, the need for adjustments to the Index Composition and/or the Weights of the Index Components.

The ABN AMRO Index Committee may review the Index Composition and/or the Weights of the Index Components based only on liquidity, Free-float Restrictions, and Technical Constraints. The decisions of the ABN AMRO Index Committee with respect to the Index Composition and/or the Weight of Index Components prevail over the rules as described in section 4.

8. Index Component De-listing and Removal, Technical Constraints and Foreign Ownership Limit

The Index Calculator will determine on every Trading Day whether or not with respect to each Index Component a De-listing Event, Removal Event, Foreign Ownership Limit Event or Technical Constraints Event (each an "**Event**") has occurred. If an Event occurs in respect of a Share, the Index Calculator shall notionally invest the value of the affected Share with effect from the De-listing Date, Removal Date, Foreign Ownership Limit Date or Technical Constraints Date (each an "**Event Date**") according to the following:

- (i) substitute by the next eligible Qualifying Share in the Selection List, which is not already an Index Component and is ranked highest in terms of market capitalisation; or otherwise
- (ii) invest pro rata in the remaining Index Components if no other Qualifying Share exists, which is not already an Index Component, subject to the Minimum Index Component requirement.

The basis for the substitution shall be the respective Price on the Trading Day preceding the relevant Event Date.

9. Corporate actions

If a corporate action other than dividends distributions related to one of the Index Components takes place, the Index Calculator will apply its standard methodology for corporate actions as set out on the Index Calculator webpage <u>www.standardandpoors.com</u> under "Policies and Methodology" and as amended from time to time.

10. Publication of the Index

The Index Value will be published by the Index Calculator on each Business Day on Bloomberg page ABNZVIEP and on Reuters page .ABNZVIEP. The Index Value will be published on each Trading Day after the London close of trading.

The list of Index Components and their Weights are available, upon reasonable request, from the Index Calculator on any Business Day.

11. Market Disruption Pertaining to Index Calculation or Re-weighting

If, in the determination of the Index Calculator, a Market Disruption Event has occurred on any Business Day, the Index Value will be calculated and published by the Index Calculator on the first succeeding Business Day, on which the Index Calculator determines that there is no Market Disruption Event, unless the Index Calculator determines that there is a Market

Disruption Event occurring on each of the 5 Business Days immediately following the original Business Day on which (but for the Market Disruption Event) the Index Value would have been calculated and published by the Index Calculator. In that case (regardless of the Market Disruption Event) the Index Calculator shall determine the Price of the Share affected by the Market Disruption Event and the Index Value having regard to the then prevailing market conditions, the last reported trading price of the respective Shares and such other factors as the Index Calculator determines to be relevant.

If, in the determination of the Index Calculator, a Market Disruption Event has occurred on any Re-weighting Date or a Delisting Date, the Re-weighting or removal shall be postponed to the first succeeding Trading Day on which the Index Calculator determines that there is no Market Disruption Event, unless the Index Calculator determines that there is a Market Disruption Event occurring on each of the 5 Trading Days immediately following the original date which (but for the Market Disruption Event) would have been a Re-weighting Date or Removal Date. In that case (i) the fifth Trading Day shall be deemed to be the Re-weighting Date or Removal Date (regardless of the Market Disruption Event); and (ii) the Index Calculator shall determine the Price of the Share affected by the Market Disruption and the Index Value having regard to the then prevailing market conditions, the last reported trading price of the respective Index Components and such other factors as the Index Calculator determines to be relevant.

12. Adjustment Events

This Index Description, and each of the clauses therein, may be adjusted by the Index Calculator, with the prior written consent of the Index Sponsor, at any time, on such date as the Index Calculator shall designate for any of the following reasons:

- (a) *Illegality Reasons:* it becomes unlawful in any applicable jurisdiction for the Index Sponsor to sell or purchase any of the Shares; or
- (b) UCITS Reasons: an adjustment to the Index is required to ensure that the Index complies with the requirements of the Council Directive of 20 December 1985 on the co-ordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (No 85/611/EEC) as amended from time to time and supplemented in similar laws or regulations for financial indices; or
- (c) *Index Calculator Event*: the Index Calculator will cease, or has ceased, for any reason, to calculate the Index.

13. Termination

On any Trading Day, the Index will cease to be calculated if the Minimum Index Component requirement is not satisfied.

If, on any Trading Day, the Index Calculator cannot calculate the Index, the Index Sponsor, in its sole and absolute discretion, can substitute or replace the Index Calculator. If this is not possible, the Index will cease to be calculated.

14. Notice

On the occurrence of a De-Listing Event, Removal Event, Technical Constraints Event or Adjustment Event (each an "**Event**"), it is the Index Calculator's intention that notice of the occurrence of such Event will be published on Bloomberg page ABNZVIEP and on Reuters page .ABNZVIEP.

The Index Calculator may, with the prior written consent of the Index Sponsor, publish such additional notices relating to the Index as it determines necessary, but is under no obligation to publish any particular notice. Such notices may be published on Bloomberg page ABNZVIEP and on Reuters page .ABNZVIEP, the Index Sponsors web page www.abnamromarkets.com, or the Index Calculators webpage www.standardandpoors.com.
