

Transfer of securities to BNP Paribas Arbitrage Issuance B.V. ("BNPP IBV") pursuant to Part VII of the UK Financial Services and Markets Act 2000

On 19 November 2015, The Royal Bank of Scotland plc (with its registered office at 36 St Andrew Square, Edinburgh, Scotland) ("**RBS**") and BNP Paribas S.A. (incorporated in France and with its registered office at 16, Boulevard des Italiens, 75009 Paris, France) ("**BNPP**"), acting through its London Branch, announced that the Court of Session in Scotland had approved and sanctioned the implementation of a banking business transfer scheme, whereby certain assets and liabilities related to RBS's structured retail investor products and equity derivatives business would be transferred to BNPP pursuant to Part VII of the UK Financial Services and Markets Act 2000 (the "**Part VII Scheme**").

The Part VII Scheme took effect on 7 December 2015 (the "Effective Date").

On the Effective Date, BNPP, acting through its London Branch, became the issuer of those securities originally issued by RBS that were transferred pursuant to the Part VII Scheme. Immediately after the transfer of those securities to BNPP, acting through its London Branch, the role of the issuer under those securities was transferred, also under the terms of the Part VII Scheme, to BNPP IBV, a wholly owned subsidiary of BNPP. As part of the Part VII Scheme, BNPP guarantees all the obligations of BNPP IBV arising in respect of the transferred securities.

Under the Part VII Scheme, amendments were made to the terms of the transferring securities and to agreements related to them from the Effective Date in order to give effect to the Part VII Scheme, including (but not limited to) references to "RBS", in its capacity as issuer of the transferred securities, being construed as references to "BNPP IBV".

Details of the securities that have transferred under the Part VII Scheme as well as further information on the Part VII Scheme generally can be viewed at <u>http://warrants.bnpparibas.com/</u>

BNP Paribas London Branch 10 Harewood Avenue London NW1 6AA - Tel: +44 (0)20 7595 2000 - <u>www.bnpparibas.com</u>

Transfers of securities to RBS plc pursuant to Part VII of the UK Financial Services and Markets Act 2000

On 6 February 2010 ABN AMRO Bank N.V. (registered with the Dutch Chamber of Commerce under number 33002587) changed its name to The Royal Bank of Scotland N.V. ("**RBS N.V.**") and on 1 April 2010 ABN AMRO Holding N.V. changed its name to RBS Holdings N.V.

On 23 September 2011, RBS N.V. and The Royal Bank of Scotland plc (with its registered office at 36 St Andrew Square, Edinburgh, Scotland) ("**RBS plc**") announced that the Court of Session in Scotland had approved and sanctioned the implementation of a banking business transfer scheme whereby eligible business carried on in the United Kingdom by RBS N.V. would be transferred to RBS plc pursuant to Part VII of the UK Financial Services and Markets Act 2000 (the "**Part VII Scheme**"). The Part VII Scheme took effect on 17 October 2011 (the "**Effective Date**").

From the Effective Date, RBS plc became the issuer of those securities originally issued by RBS N.V. which were transferred to RBS plc pursuant to the Part VII Scheme. Under the Part VII Scheme, amendments were made to the terms of the transferring securities and to agreements related to them from the Effective Date in order to give effect to the Part VII Scheme, including (but not limited to) references to "RBS N.V." being construed as references to "RBS plc". Details of these amendments are set out in the Scheme Document which can be viewed at <u>http://www.investors.rbs.com/RBS NV</u>.

For details of which securities were transferred to RBS plc pursuant to the Part VII Scheme, investors should refer to <u>http://www.investors.rbs.com/RBS_NV</u> or, for securities issued from on or about 21 July 2011, investors should refer to the terms of the issue or offer documents (including term-sheets) (if they indicate that RBS plc was expected to become the issuer of the securities as a result of the Part VII Scheme, then RBS plc has become the issuer, unless the securities have been exercised, redeemed or repurchased and cancelled prior to the implementation of the Part VII Scheme).

For further details of the Part VII Scheme generally, investors should refer to <u>http://www.investors.rbs.com/RBS_NV</u>.

Open End Certificates linked to ABN AMRO Vietnam II Total Return Index

Final Termsheet, 4 June 2008

Open-ended CHF

We are pleased to present for your consideration the transaction described below. We are willing to negotiate a transaction with you because we understand that you have sufficient knowledge, experience and professional advice to make your own evaluation of the merits and risks of a transaction of this type and you are not relying on ABN AMRO Bank N.V. nor any of the companies in the ABN AMRO group for information, advice or recommendations of any sort other than the factual terms of the securities described below. ABN AMRO has developed and is responsible for the methodology that is employed in connection with the ABN AMRO Vietnam II Total Return Index. Standard & Poor's has provided a contribution to the ABN AMRO Vietnam II Total Return Index in a limited manner. Standard & Poor's contribution is limited to providing consulting services to ABN AMRO and performing calculations and data distribution in connection with the Index as well as maintenance of the Index. Standard & Poor's does not sponsor, endorse, sell, or promote any investment fund or other vehicle that is offered by third parties and that seeks to provide an investment return based on the returns of the ABN AMRO Vietnam II Total Return Index. A decision to invest in any such investment fund or other vehicle should not be made in reliance on any of the statements set forth in this document. Prospective investors are advised to make an investment in any such fund or vehicle only after carefully considering the risks associated with investing in such funds, as detailed in an offering memorandum or similar document that is prepared by or on behalf of the issuer of the investment fund or vehicle. ABN AMRO has developed, maintained and is the sole party responsible for the methodology that is employed in connection with the ABN AMRO Vietnam II Total Return Index.

Appendix A

Disclaimer

WARNING: This term sheet is for information purposes only and does not constitute an offer to sell or a solicitation to buy any security or other financial instrument. All prices are indicative and dependent upon market conditions and the terms are liable to change and completion in the final documentation.

WARNING: The contents of this document have not been reviewed by any regulatory authority in the countries in which it is distributed. Investors are advised to exercise caution in relation to the contents of this document. If you are in doubt, you should obtain independent professional advice.

Due to its proprietary nature, this proposal is confidential. This material is intended solely for the use of the intended recipient(s) and the contents may not be reproduced, redistributed, or copied in whole or in part for any purpose without the express authority of ABN AMRO.

Any purchase of the Certificates should be made on the understanding that the purchaser shall be deemed to acknowledge, represent, warrant and undertake to ABN AMRO that (i) it consents to the provision by ABN AMRO to any governmental or regulatory authority of any information regarding it and its dealings in the Certificates as required under applicable regulations and/or as requested by any governmental or regulatory authority; and (ii) it agrees to promptly provide to ABN AMRO, or directly to the relevant governmental or regulatory authority (and confirm to ABN AMRO when you have done so), such additional information that ABN AMRO deems necessary or appropriate in order for ABN AMRO to comply with any such regulations and/or requests.

This Investment Product is issued by ABN AMRO Bank N.V., London Branch, which holds the only legally binding terms (including risk and legal considerations) and which is available upon request.

The terms and conditions set out in this document are, prior to the Issue Date, indicative. No assurance can be given that such an issue could in fact be arranged and that no specific issuer is obligated to issue such securities or obligations. This document is neither a simplified prospectus as stated in Art. 5 Collective Investment Law ("CISA") nor a prospectus in accordance with Art. 652a / Art. 1156 Swiss Code of obligation. This product is not an investment fund and therefore not subject to supervision by the Swiss Federal Banking Commission. As a consequence, the investor does not benefit from the specific investor protection provided under the Collective Investment Iaw ("CISA"). Investors in the Certificates are exposed to the credit risk of the issuer.

Selling restrictions

General. No action has been taken or will be taken by the Issuer that would permit a public offering of the Certificates or possession or distribution of any offering material in relation to the Certificates in any jurisdiction where action for that purpose is required. No offers, sales or deliveries of any Certificates, or distribution of any offering material relating to the Certificates, may be made in or from any jurisdiction except in circumstances that would result in compliance with any applicable laws and regulations and would not impose any obligation on the Issuer.

These Securities may not be offered or sold (i) to any person/entity listed on sanctions lists of the European Union, United States or any other applicable local competent authority; (ii) within the territory of Cuba, Sudan, Iran and Myanmar; (iii) to residents in Cuba, Sudan, Iran or Myanmar; (iv) to Cuban Nationals, wherever located; (v) to Sudanese, Iranian or Myanmar Nationals with ownership or management control over a legal entity incorporated in Cuba, Sudan, Iran or Myanmar.

US, Netherlands and UK. The Certificates may not be offered or sold within the United States or the Netherlands or, to or for the benefit of, US persons or private customers in the United Kingdom

Risk factors

Investment in the Certificates involves significant risks and while the following summary of certain of these risks should be carefully evaluated before making an investment in the Certificates, the following does not intend to describe all possible risks of such an investment:

- (a) Open End Certificates. Open End Certificates are investment instruments which, at exercise or termination pay an amount equal to the level of the Underlying subject to the certificate entitlement, foreign FX Rate and expenses. As such, they entail the same level of risk as a direct investment in the Underlying. Investors should be aware that their entire investment may be lost, in the event that the Underlying is valued at zero. The investor should be aware that the issuer is entitled to terminate the Certificates under certain circumstances against payment of a termination Amount. In the event of termination, unlike direct investments, as the certificates now have a limited term, investors are not able to hold them beyond the termination date in the expectation of a recovery in the price of the Underlying
- (b) Investment Risks. The price at which a holder will be able to sell Certificates prior to exercise or termination may be at a potentially substantial discount to the market value of the Certificates at the issue date, if, at such time and in addition to any other factors, the value of the Underlying is below, equal to or not sufficiently above the value of the Underlying at the issue date.

The price of the Certificates may fall in value as rapidly as it may rise and investors may not get back the amount invested. The price of the Certificates may be affected by a number of factors, including changes in the value and volatility of the Underlying, the creditworthiness of the Issuer, changes in foreign exchange rates and economic, financial and political events that are difficult to predict. The past performance of the Underlying or other securities or derivatives should not be taken as an indication of the future performance of the Underlying or other securities or derivatives.

(c) Suitability of the Certificates. The purchase of the Certificates involves certain risks including market risk, credit risk and liquidity risk. Investors should ensure that they understand the nature of all these risks before making a decision to invest in the Certificates. Investors should carefully consider whether the Certificates are suitable for them in light of their experience, objectives, financial position and other

relevant circumstances. If in any doubt, investors should obtain relevant and specific professional advice before making any investment decision. In structuring, issuing and selling the Certificates, ABN AMRO is not acting in any form of fiduciary or advisory capacity.

- (d) Creditworthiness of Issuer. The Certificates constitute general unsecured contractual obligations of the Issuer and of no other person. Investors in the Certificates are relying upon the creditworthiness of the Issuer and have no rights under the Certificates against any other person.
- (e) Secondary market trading. No assurance can be given that any trading market for the Certificates will exist or whether any such market will be liquid or illiquid. While the Issuer expects to make a market in the Certificates, it is not obliged to do so. Any market making activity if commenced may be discontinued at any time. If the Certificates are not traded on any exchange, pricing information may be more difficult to obtain and the liquidity and price of the Certificates may be adversely affected.
- (f) Conflicts of interest. ABN AMRO and its officers and employees may from time to time (i) have long or short positions in the Underlying or other securities or derivatives that may affect the value of the Certificates; and/or (ii) possess or acquire material information about the Certificates, the Underlying or other securities or derivatives that may affect the value of the Certificates. If applicable, ABN AMRO may at any time solicit or provide investment banking, commercial banking, credit, advisory or other services to the issuer of the Underlying. Such activities and information may cause consequences that are adverse to the interests of the investors in the Certificates or other securities or other securities or other securities or other securities and actual conflicts of interest. ABN AMRO has no obligation to disclose such activities or information or other potential and actual conflicts of interest and may engage in any such activities without regard to the interests of the investors in the Certificates or the effect that such activities may directly or indirectly have on the Certificates.
- (g) Early termination. The Issuer may terminate the Certificates if it determines that it has become unlawful for the Issuer to perform its obligations under the Notes or its ability to source a hedge or unwind an existing hedge in respect of the Certificates is adversely affected in any material respect. If the Issuer terminates early the Certificates, the Issuer will, if and to the extent permitted by applicable law, pay a holder of the certificates an amount determined to be its fair market value immediately before such termination notwithstanding such circumstances less the actual cost to the Issuer of unwinding any underlying related hedging arrangements.
- (h) Hedging activities. Notwithstanding any communication that you may have had with ABN AMRO in respect of the manner in which ABN AMRO may establish, maintain, adjust or unwind the Hedge Positions (i) ABN AMRO may in its absolute discretion determine when, how or in what manner it may establish, maintain or adjust or unwind its Hedge Positions; (ii) ABN AMRO may, but is not obliged to, hedge the Certificates dynamically by holding a corresponding position in the Underlying or any other securities, derivatives or otherwise; (iii) any Hedge Positions are the proprietary trading positions of ABN AMRO and are not held on your behalf or as your agent.
- (i) Quanto feature. If applicable, the quanto feature cancels the currency exposure on the product payoff at exercise or termination. Hence, on maturity or expiration, a product denominated in a currency different to the underlying asset(s) currency, will have its payoff calculated only on the performance of the underlying asset(s), with no account taken for the FX Rate between the two currencies at such time. During the life of the product, this non-exposure to currency may come at a cost or benefit depending on the difference between the domestic and foreign interest rates and the FX Rate between the two currencies.
- (j) Averaging. If applicable, prospective purchasers or holders of the Securities should be aware that the calculation of the final redemption formula is not based on a single closing level of the Underlying, but on the average of the closing levels of the Underlying on the averaging dates. This may have the effect that the final calculation level can be well below the price of the Underlying at exercise.
- (k) Adjustments. The Issuer may make adjustments to the terms of the Certificates if an event which affects an underlying asset requires it. This may include any event which has or may have a concentrating or diluting effect on the theoretical value of any underlying asset, including, without limitation, any cash dividend or other cash distribution, stock dividend, bonus issue, rights issue, or extraordinary dividends, or the insolvency of the issuer of the Underlying, nationalisation of the assets of the issuer of the Underlying and delisting or suspension of the Underlying.
- (I) Market Disruption. The Calculation Agent for the Certificates may determine that a market disruption event has occurred or exists at a relevant time. Any such determination may affect the value of the Certificates and/or delay settlement in respect of the Certificates. A Market Disruption Event includes any suspension or limitation of trading on the Exchange or any Related Exchange, the declaration of a general moratorium in respect of banking activities in the country where the Exchange or any Related Exchange is located and the inability of ABN AMRO to unwind its hedge or related trading position relating to the Underlying due to illiquidity. Upon the occurrence of Market Disruption Event, the determination of the closing price of the Underlying will be made on the first succeeding exchange business day on which there is no Market Disruption Event whereas such Market Disruption Event has continued for five consecutive exchange Business Days after the original determination date such fifth exchange business day is deemed to be the Valuation Date and the Calculation agent shall determine the good faith estimate of the value for the Underlying on such exchange business day. The final settlement date (or the settlement date in respect of an early termination or redemption date) will be delayed accordingly.
- (m) FX market disruption. If applicable, investors should note that all payments on expiry or a secondary market purchase by the Issuer are subject to the ability of the Issuer to (i) sell the underlying asset(s); (ii) convert the currency of an underlying asset into the currency of the Certificates; and (iii) transfer the currency of the Certificates from accounts in the country where an underlying asset is located to accounts outside that country. The occurrence of any of these events may affect the value of the Certificates and and/or delay settlement in respect of the Certificates or, if such events result in settlement being delayed for the period specified in the terms and conditions for the Certificates, may result in all obligations of the Issuer in respect of the Certificates being extinguished.
- (n) Emerging markets. If applicable, investing in emerging markets involves certain risks and special considerations not typically associated with investing in other more established economies or securities markets. Such risks may include (i) the risk of nationalization or expropriation of assets or confiscatory taxation; (ii) social, economic and political uncertainty; (iii) dependence on exports and the corresponding importance of international trade and commodities prices; (iv) less liquidity of securities markets; (v) currency FX Rate fluctuations; (vi) potentially higher rates of inflation (including hyper-inflation); (vii) controls on investment and limitations on repatriation of invested capital; (viii) a higher degree of governmental involvement in and control over the economies; (ix) government decisions to discontinue support for economic reform programs and imposition of centrally planned economies; (x) differences in auditing and inflation reporting standards which may result in the unavailability of material information about economics; (xii) less stringent laws regarding the fiduciary oversight of securities markets; (xii) longer settlement periods for securities transactions; (xiii) less stringent laws regarding the fiduciary

duties of officers and directors and protection of investors; and (xiv) certain consequences regarding the maintenance of portfolio securities and cash with sub-custodians and securities depositories in emerging market countries.
